

NOTICES

Accessibility Statement

Our commitment to making ShareRocketPro usable for everyone, whatever tools they rely on.

VERSION	v1.1
EFFECTIVE DATE	10 August 2026
LAST UPDATED	21 September 2026
CLASSIFICATION	Public
STRUCTURE	10 sections - 24 clauses
DOCUMENT ID	SRP-LEGAL-ACCESSIBILITY-V1.1
GOVERNING LAW	Laws of Nepal
ISSUED BY	Share Rocket Pro - Legal & Compliance

AT A GLANCE

- We want ShareRocketPro to be usable by as many people as possible, including those who use assistive technology.
- We work towards WCAG 2.1 Level AA as a goal - a best-effort commitment, not a formal certification.
- Some animated visuals and data visualisations (such as the market heatmap) can still be hard for certain users; the on-page document is always the accessible source of truth.
- Accessibility is ongoing work that improves as we iterate, and your feedback helps.
- Need an alternative format or run into a barrier? Email us and we will help.

A product of Share Rocket Pro Pvt. Ltd.

1. Our Commitment

This Accessibility Statement explains how we approach accessibility across ShareRocketPro - the website, mobile apps and related services (together, the "Service").

- 1.1 ShareRocketPro is an educational paper-trading simulator, and we believe learning about markets should be open to everyone. We are committed to making the Service usable by as many people as possible, including people who rely on assistive technology.
- 1.2 Accessibility is not a one-time task for us. It is part of how we design, build and review the Service, and something we keep working on over time.
- 1.3 This statement sits alongside our other Notices and should be read together with our Terms of Use and Privacy Policy.

2. The Standard We Aim For

- 2.1 We work towards the Web Content Accessibility Guidelines (WCAG) 2.1 at Level AA as a goal. These guidelines are an internationally recognised benchmark for making digital content more accessible.
- 2.2 This is a best-effort commitment, not a formal certification or a claim of full conformance. We do not assert that every page, screen or feature meets every WCAG 2.1 Level AA criterion at all times.
- 2.3 As the Service changes and grows, some parts will meet this standard more closely than others. We aim to close the gaps over time.

3. Measures We Take

In building the Service, we try to follow accessibility good practice. Among other things, we aim to:

- 3.1 Build with accessibility in mind, including:
 - a. using semantic HTML so structure and headings are meaningful to assistive technology;
 - b. supporting keyboard navigation so the Service can be used without a mouse;
 - c. aiming for sufficient colour contrast between text and its background;
 - d. offering both a light and a dark theme so you can choose what is easier to read;
 - e. using responsive layouts that scale across phones, tablets and desktops, and that respond to browser zoom and larger text;
 - f. providing descriptive alt text for meaningful images, and labels for form fields and interactive controls.
- 3.2 Prefer plain, direct language so that content is easier to understand, particularly for something as unfamiliar as market terminology.
- 3.3 Consider accessibility when we add or change features, rather than treating it as an afterthought.

4. Known Limitations

We want to be honest about where the Service may fall short today. Known limitations include:

- 4.1 Certain visual and interactive elements can be difficult for some users, including:
 - a. animated and 3D visuals used for decoration or illustration, which may be distracting or hard to interpret;
 - b. market data visualisations such as the heatmap and range bars, where information conveyed visually may not be fully available in a non-visual form;
 - c. fast-moving or frequently updating data, which can be harder to follow with some assistive technologies.
- 4.2 Downloadable PDF versions of our documents may be less accessible than the equivalent web page. Where a document is offered as both a web page and a PDF, the on-page version is always the accessible source of truth.
- 4.3 We are aware of these limitations and treat them as areas to improve, not as the finished state of the Service.

5. Ongoing Work

- 5.1 Accessibility on the Service is continually improving as we iterate. We review and refine pages and features over time, and we factor accessibility into new work.
- 5.2 Because we ship changes regularly, the accessibility of any given page may improve between releases. This statement describes our general approach rather than the state of any single screen on any single day.

6. Getting Help or an Alternative Format

- 6.1 If you cannot access part of the Service, or you need information in a different format, email us at info@sharerockets.com and we will do our best to help or to provide the information another way.
- 6.2 Please tell us what you were trying to do, the page or screen involved, and the assistive technology, browser or device you were using, so we can understand and respond to the barrier.

7. Third-Party Content

- 7.1 The Service may link to external websites or include embedded third-party tools that we do not control. We cannot guarantee the accessibility of that external content.
- 7.2 If you meet an accessibility barrier on a third-party site or tool reached through the Service, we encourage you to contact that provider directly. You may also let us know at info@sharerockets.com so we can consider it.

8. Compatibility

- 8.1 The Service is designed to work with current versions of common web browsers and with widely used assistive technologies such as screen readers, screen magnifiers and keyboard-only navigation.
- 8.2 We cannot guarantee full compatibility with every browser, device or assistive technology, particularly older or less common ones. Using an up-to-date browser and assistive technology generally gives the best experience.

9. Feedback

- 9.1 We welcome your feedback on the accessibility of the Service. Your experience helps us find and fix barriers we may not have noticed.
- 9.2 Please send accessibility feedback to info@sharerockets.com. We read it and use it to prioritise improvements, though we cannot promise a specific outcome or timeframe.

10. Changes & Contact

- 10.1 We may update this Accessibility Statement from time to time as the Service and our practices evolve. The current version is always the one published at sharerocketpro.com/legal/accessibility, and the effective date at the top reflects the latest revision.
- 10.2 For help or an alternative format, contact info@sharerockets.com. For general accessibility feedback, contact info@sharerockets.com.
